

ReBAR™

SUPPORT PRODUCTS

Designed For The Specific Needs Of

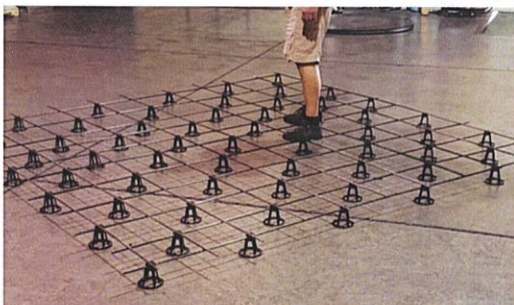

3/8" FRP Rebar

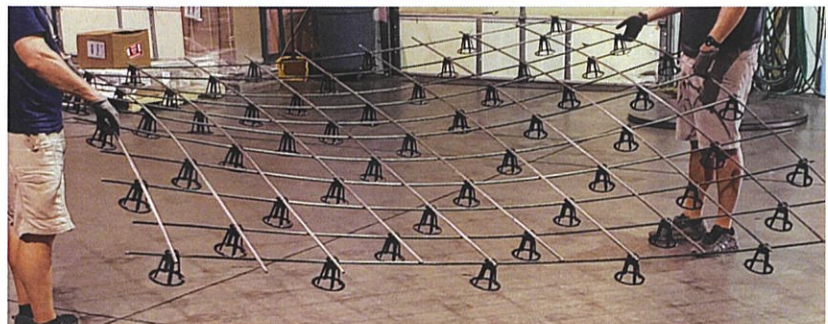

NOT INTENDED FOR USE WITH POLYESTER BAR

- Made from poly carbonate plastic for higher strength.
- Patent pending design
- Meets or exceeds requirements of CRSI Class 1 Bar Support
- Primary use is for slab on grade but also works well for foundation footer construction
- Secures the intersect, replacing the need to tie wire
- Concrete fills the chair's void, anchoring the chair to grade
