

Gates®

CAM-LOCK®

Gates' signature hand-set forming system

OVERVIEW

SIMPLE

Easy to use with fewer parts and pieces than most hand-set systems, and requires less lumber and nailing

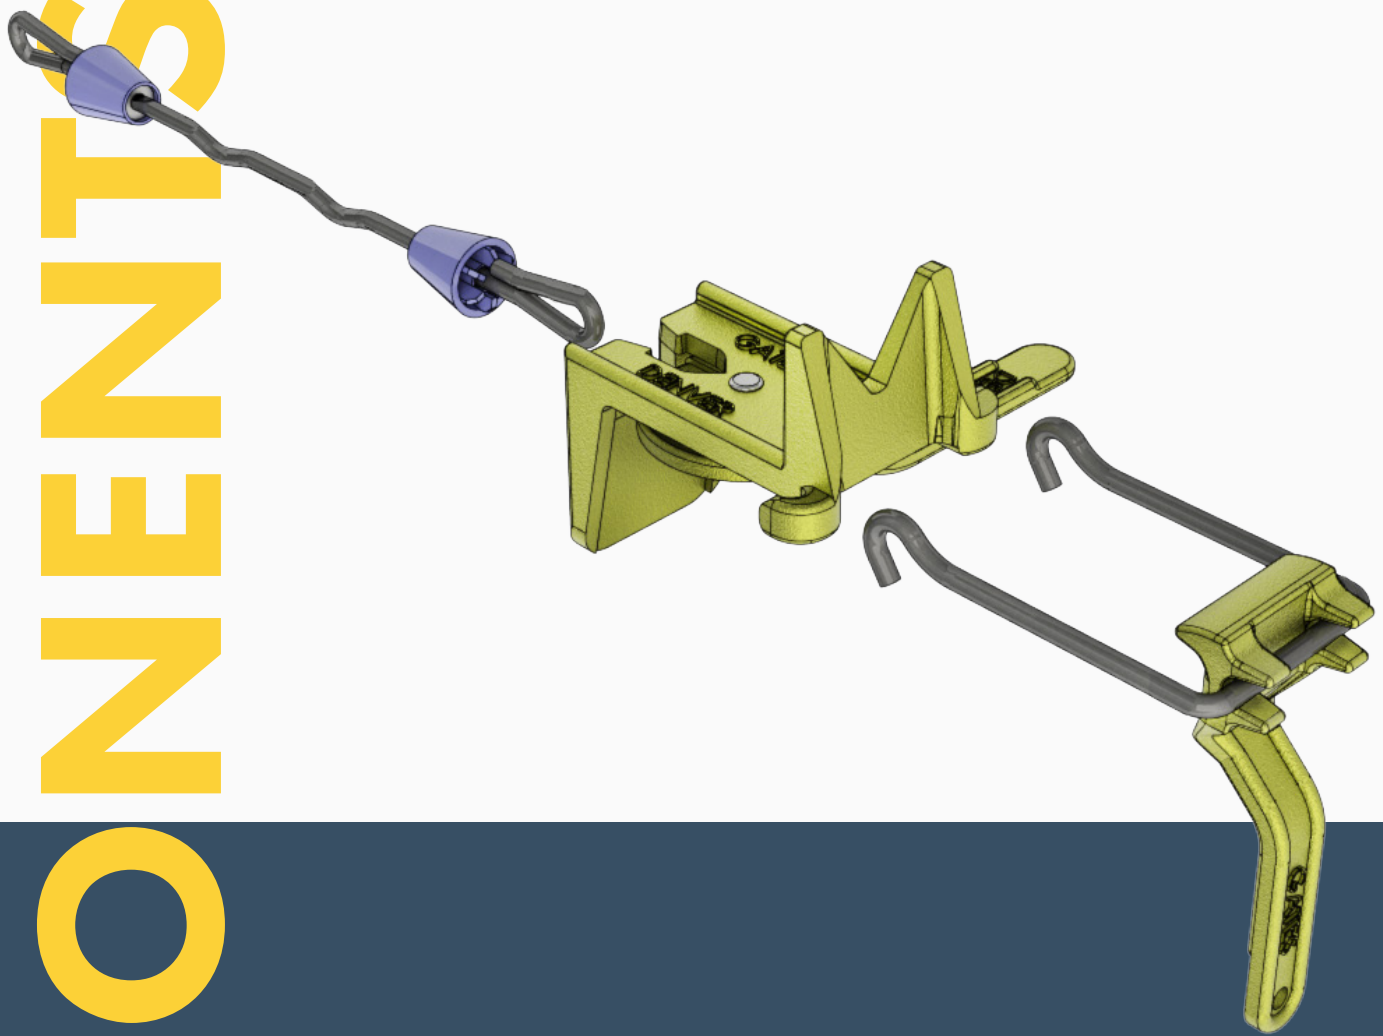

VERSATILE

Perfect for a wide variety of heights, shapes, and radii, as well as specialty job-site considerations

QUALITY FINISH

Achieve an architectural finish with an easily adaptable, customizable hand-set system

COMPONENTS

CAM-LOCK BRACKET

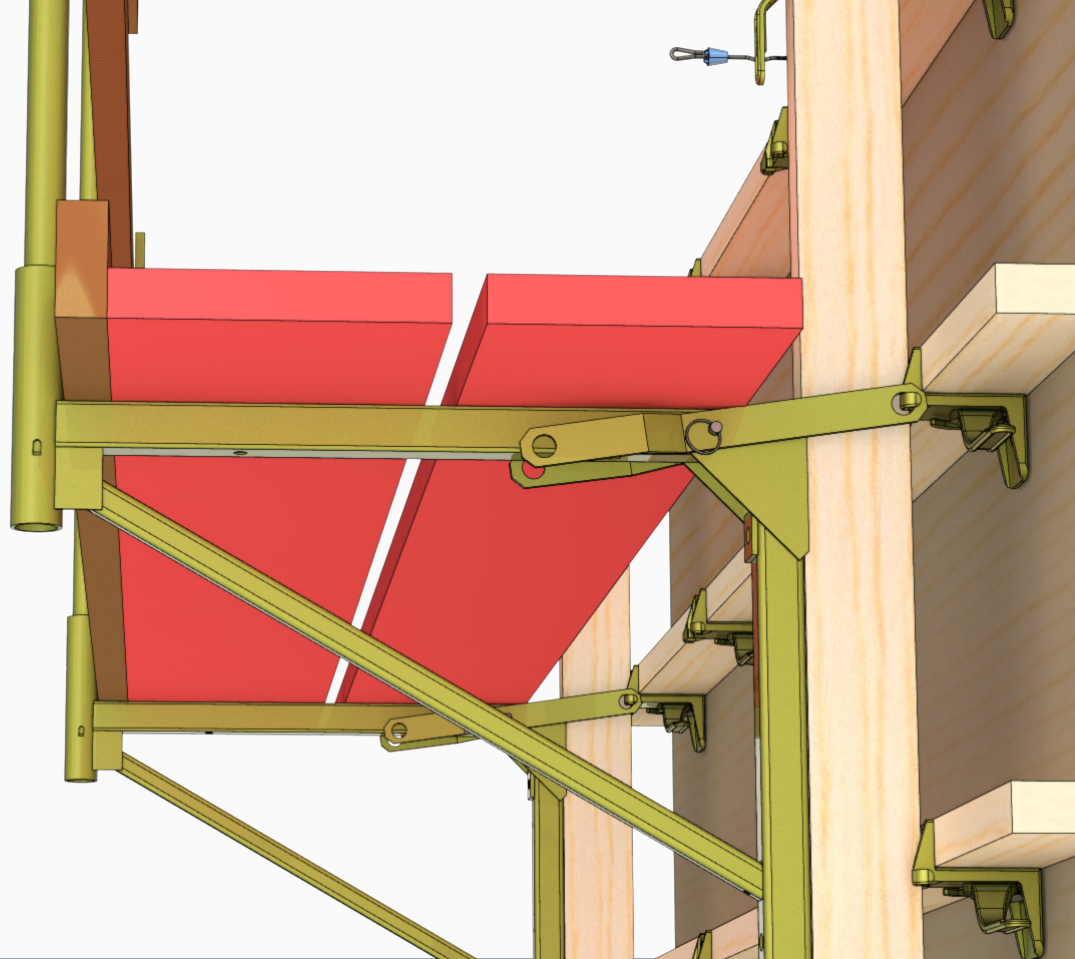

Easy to use clamp and bracket assembly engage the loop end tie, securely holding the 2x4 waler in place

TIES

All ties are manufactured in Denver, Colorado in standard 1", 1.5", and 2" break back depths, and can be custom made to suit various applications

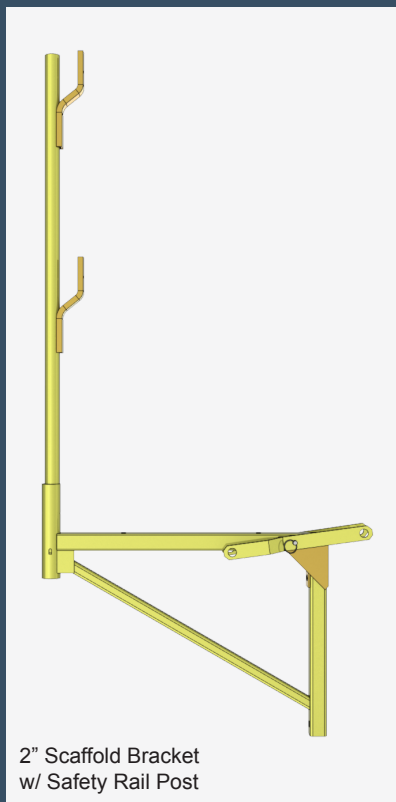

SCAFFOLDING

Our integral OSHA compliant scaffolding system attaches to the back of the Cam-Lock Bracket

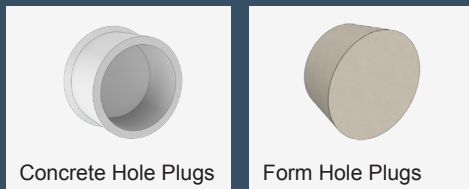

SCAFFOLDING HARDWARE

AND SYSTEM ACCESSORIES
