

Mini Brace

Adjustable and reusable formwork alignment that eliminates the cost of 2x4 lumber bracing

Stop cutting lumber, searching for turnbuckles and nailing braces together on every forming job... eliminate those labor and material costs with the adjustable Mini Brace.

- Telescoping design adjusts from 7'-6" to 11'-6" (in 6" increments).
- Adjustment pin and chain makes it easy to quickly change the length.
- Attachment plate provide a simple connection to the SurePly™ forming system.
- Coil thread at each end provides 16" of adjustment (8" each end).

The Mini Brace quickly adjusts to form layouts and changing conditions without any extra material costs.
