

# bmf<sup>®</sup> Metal Forms

## O-K Flexible Sidewalk Forms

Here is the answer to the problem of pouring that curved sidewalk! Throw out all your splintered plywood and do it the easy way with O-K Flexible Sidewalk Forms. You can now form inside or outside radii with one set of forms and have all the advantages of easy setup, stripping and re-use that only metal forms can offer. The forms are Hi-carbon steel, lightweight and have ample rigidity with six stake pockets.

Steel Stakes

### Steel Stakes

These stakes are especially fabricated for setting steel concrete forms. They're forged from high carbon steel. The point is designed to drive straight and to resist wearing.

They are available in 7/8 inch diameters and in lengths of 15, 18, and 24 inches.

### Specifications
